

## **AN INTRODUCTION TO O.W.L.s**

The O.W.L.s Test is used to test your knowledge on Harry Potter books 1-4. The Ordinary Wizarding Levels (O.W.L.s) Test was created to test you in many different areas. For the O.W.L.s Test you must be able to correct misspelled words; answer true or false questions, and you will need to know the chapter numbers and names from the Harry Potter books; spells and their meanings; and much more.

There are 15 spells questions that you must define the meanings of them and for some of the spells questions you must give the name of the spell. Multiple-Choice is the second largest group of questions in which you are given 26 questions and three possible answers for each question. You must also answer five True or False questions; seven Chapter questions, in which you must give the number of the chapter or the name of the chapter, and six Quotes questions, in which you are given a quote from one of the first four Harry Potter books and you must tell what character said it. In the O.W.L.s Test there are also 87 On Your Own questions; 13 misspelled words in which you must correct them, and eight Other Questions which test your knowledge on what year the Harry Potter books were published; who the Harry Potter books are dedicated to, how many pages are in the Harry Potter books, and so on. There are a total of 167 questions in the O.W.L.s Test.

When taking the O.W.L.s Test you may not, at any time, use any Harry Potter book. You must get at least 108 questions out of 167 questions correct to pass the test.

I bid you good luck and remind you, NO CHEATING!!!

TWWN Webmaster,
